

# Sense Reporting.

## Version 1.x A professional tool for fast and versatile report creation.

The true value of thermal inspection is the documentation you leave behind. Improve your delivery and manage your thermal reporting with clarity and simplicity. Take the tiresome manual work out of reporting.

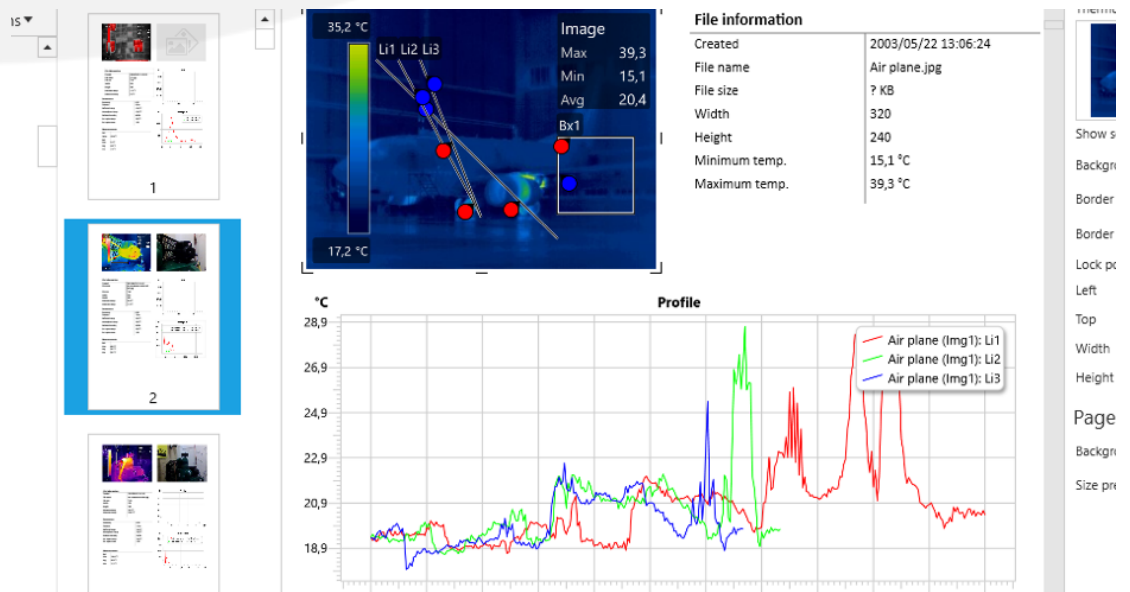

Form a report and tailor to your organization's look and feel without additional expensive licenses.

Make comparison easy. Plot profiles and histograms and operate formula calculations from multiple images. Test

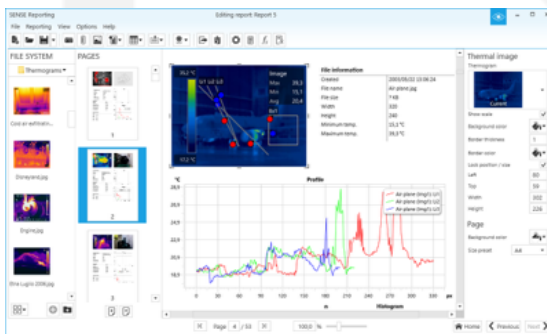

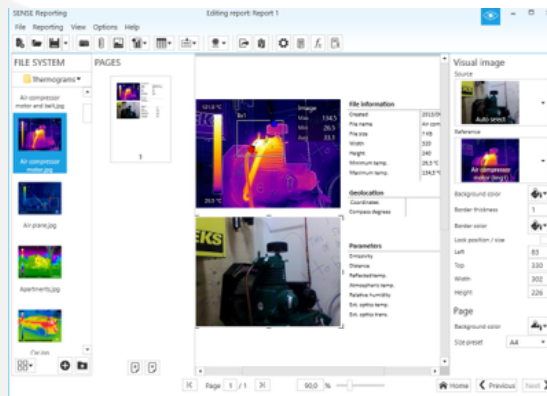

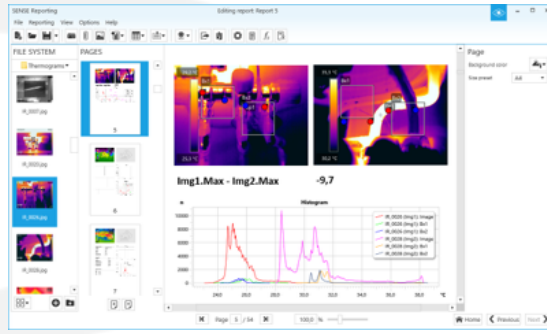

whether conditions are true or false and make logical comparisons.

Sense Reporting lets you comfortably transform all your data from your latest check up into an easy to read automated report in just seconds. Simplify the work you do every day.

With Sky Eye Sense Reporting you can work with customizable and dynamic templates reducing the risk of inaccuracies and errors, while shareable graphic files give your audience access to review results, accuracy, and consistency.
